

(b) *Distribution of total support available per state.* The total amount of support available per State calculated pursuant to paragraph (a) of this section shall be distributed to non-rural incumbent local exchange carriers, and eligible telecommunications carriers serving lines in the service areas of non-rural incumbent local exchange carriers, in the following manner:

(1) The Commission's cost model shall determine the percentage of the total amount of support available in the State for each wire center by calculating the ratio of the wire center's FLEC above the national cost benchmark to the total FLEC above the national cost benchmark of all wire centers within the State. A wire center's FLEC above the national cost benchmark shall be equal to the wire center's average FLEC per line above the national cost benchmark, multiplied by the number of switched lines in the wire center used in the Commission's cost model;

(2) The total amount of support distributed to each wire center shall be equal to the percentage calculated for the wire center pursuant to paragraph (b)(1) of this section multiplied by the total amount of support available in the state;

(3) The total amount of support for each wire center pursuant to paragraph (b)(2) of this section shall be divided by the number of lines in the wire center reported pursuant to § 36.611, § 36.612, and § 54.307 of this chapter to determine the per-line amount of forward-looking support for that wire center;

(4) The per-line amount of support for each wire center pursuant to paragraph (b)(3) of this section shall be multiplied by the number of lines served by a non-rural incumbent local exchange carrier in that wire center, or by an eligible telecommunications carrier in that wire center, as reported pursuant to § 36.611, § 36.612, and § 54.307 of this chapter, to determine the amount of forward-looking support to be provided to that carrier.

(5) The total amount of support calculated for each wire center pursuant to paragraph (b)(4) of this section shall be divided by the number of lines in the wire center to determine the per-line

amount of forward-looking support for that wire center;

(6) The per-line amount of support for a wire center calculated pursuant to paragraph (b)(5) of the section shall be multiplied by the number of lines served by a non-rural incumbent local exchange carrier in that wire center, or by an eligible telecommunications carrier in that wire center, to determine the amount of forward-looking support to be provided to that carrier.

(c) *Petition for waiver.* Pursuant to section 1.3 of this chapter, any State may file a petition for waiver of paragraph (b) of this section, asking the Commission to distribute support calculated pursuant to paragraph (a) of this section to a geographic area different than the wire center. Such petition must contain a description of the particular geographic level to which the State desires support to be distributed, and an explanation of how waiver of paragraph (b) of this section will further the preservation and advancement of universal service within the State.

[64 FR 67431, Dec. 1, 1999, as amended at 65 FR 26516, May 8, 2000]

#### **§ 54.311 Interim hold-harmless support for non-rural carriers.**

(a) *Interim hold-harmless support.* The total amount of interim hold-harmless support provided to a non-rural incumbent local exchange carrier shall equal the amount of support calculated for that carrier pursuant to part 36 of this chapter. The total amount of interim hold-harmless support provided to a non-rural incumbent local exchange carrier shall also include Long Term Support provided pursuant to § 54.303, to the extent that the carrier would otherwise be eligible for such support. Beginning on January 1, 2000, in the event that a State's statewide average FLEC per line, calculated pursuant to § 54.309(a), does not exceed the national cost benchmark, non-rural incumbent local exchange carriers in such State shall receive interim hold-harmless support calculated pursuant to part 36, and, if applicable, § 54.303. In the event that a State's statewide average FLEC per line, calculated pursuant to § 54.309(a), exceeds the national cost benchmark, but the amount of support that would be provided to a non-rural

incumbent local exchange carrier in such State pursuant to § 54.309(b) is less than the amount that would be provided pursuant to part 36 and, if applicable, § 54.303, the carrier shall be eligible for support pursuant to part 36 and, if applicable, § 54.303. To the extent that an eligible telecommunications carrier serves lines in the service area of a non-rural incumbent local exchange carrier receiving interim hold-harmless support, the eligible telecommunications carrier shall also be entitled to interim hold-harmless support in an amount per line equal to the amount per line provided to the non-rural incumbent local exchange carrier pursuant to paragraph (b) of this section.

(b) *Distribution of Interim Hold-Harmless Support Amounts.* Until the third quarter of 2000, interim hold-harmless support shall be distributed pursuant to part 36 and, if applicable, § 54.303 of this subpart. Beginning in the third quarter of 2000, the total amount of interim hold-harmless support provided to each non-rural incumbent local exchange carrier within a particular State pursuant to paragraph (a) shall be distributed first to the carrier's wire center with the highest wire center average FLEC per line until that wire center's average FLEC per line, net of support, equals the average FLEC per line in the second most high-cost wire center. Support shall then be distributed to the carrier's wire center with the highest and second highest wire center average FLEC per line until those wire center's average FLECs per line, net of support, equal the average FLEC per line in the third most high-cost wire center. This process shall continue in a cascading fashion until all of the interim hold-harmless support provided to the carrier has been exhausted.

(c) *Petition for waiver.* Pursuant to section 1.3 of this chapter, a State may file a petition for waiver of paragraph (b) of this section, asking the Commission to distribute interim hold-harmless support to a geographic area different than the wire center. Such petition must contain a description of the particular geographic level to which the State desires interim hold-harmless support to be distributed, and an

explanation of how waiver of paragraph (b) of this section will further the preservation and advancement of universal service within the State.

(d) *Phase down of interim hold-harmless support.* Beginning January 1, 2001, the interim hold-harmless support for which a non-rural incumbent local exchange carrier qualifies under paragraph (a) of this section, excluding Long Term Support, shall be phased down through annual \$1.00 reductions in average monthly, per-line support. Applicable annual reductions shall be subtracted from the total amount of interim hold-harmless support that a non-rural incumbent local exchange carrier otherwise would be eligible to receive on an ongoing, quarterly basis. The provisions of paragraph (b) of this section shall apply to the total amount of phased-down interim hold-harmless support provided to each non-rural incumbent local exchange carrier.

(1) Interim hold-harmless support for a wire center transferred to a carrier that does not meet the definition of rural telephone company in § 51.5 of this chapter shall be phased down following the transfer over the same time period as the seller's support would have been phased down, by an equal percentage for each year of the phase-down period.

(2) Interim hold-harmless support for a wire center transferred to a carrier that meets the definition of rural telephone company in § 51.5 of this chapter shall remain frozen at the per-line support level as of the sale date.

[64 FR 67432, Dec. 1, 1999, as amended at 64 FR 73428, Dec. 30, 1999; 65 FR 78992, Dec. 18, 2000]

**§ 54.313 State certification of support for non-rural carriers.**

(a) *Certification.* States that desire non-rural incumbent local exchange carriers and/or eligible telecommunications carriers serving lines in the service area of a non-rural incumbent local exchange carrier within their jurisdiction to receive support pursuant to §§ 54.309 and/or 54.311 must file an annual certification with the Administrator and the Commission stating that all federal high-cost support provided to such carriers within that
